

# IV Jornadas Internacionales para la sensibilización frente al riesgo sísmico en la provincia de Alicante)

<https://riesgosismico.es/iv-iwsrad/>

## Posters

- 1- Impact of Solar Radiation Modification on Climate Extremes for Paddy Granary Areas of Peninsular Malaysia by **Choong Kah Lok** (Universiti Sains Malaysia)
- 2- Seismic vulnerability assessment of the Orihuela hospital: integration of field monitoring data and computational análisis by A. Kharazian, **A.Guardiola-Villora**, G. Ortuño Saez, S. Molina, J.J. Galiana-Merino, J.L. Soler Llorens, J.A. Huesca Tortosa, I. Gómez Doménech, D. Montiel López (Universidad Politécnica de Valencia)
- 3- Geospatial Mapping of Urban Heat Island Patterns for Climate-Resilient Greening Strategies: Case Study in Kuala Lumpur, Malaysia by **Mohd Rahimi bin Abdul Karim** (Universiti Utara Malaysia)
- 4- Machine-Learning Estimator for Ground Shaking Map on support of decision making by **Rut Blanco Prieto**, M. Monterrubio-Velasco, N. Zamora, C.Bhihe, J. de la Puente (Barcelona Supercomputing Center)
- 5- Preliminary results of seismic amplification functions in the Valencian Community using the GIT technique by **Giuseppe Orefice**, Laura Cataldi, Valerio Poggi, Juan José Galiana-Merino, Juan Luis Soler, Ivan Montiel-Martínez, Francesco Panzera (Università degli Studi di Catania, Italy)

## ORGANISMOS FINANCIADORES
